SEED ROUND - AUSTIN, TX

Lumora Health

AI triage that routes every patient to the right clinician first time.

$18k MRR | 22% MoM growth
37 clinics live | 4,200 monthly active users

PROBLEM

Triage is still a phone queue

Clinics lose 11 nurse-hours a week to manual triage.
24% of walk-ins are routed to the wrong specialty.
Patients wait 9 days on average for a first appointment.

The cost lands on the smallest clinics.

SOLUTION

Triage in 90 seconds, not 9 days

Symptom intake by web and SMS, no app to install.
A clinical model scores urgency and suggests a specialty.
Routes straight into the clinic’s existing EHR schedule.

Nurses review and confirm every recommendation.

TRACTION

Clinics keep it after the pilot

$18,000 MRR, up 22% month over month.

37 clinics live across 4 states.

4,200 patients triaged a month.

94% routing accuracy against physician review.

Net revenue retention 131%.

THE ASK

Raising $2M seed

60% engineering | 25% clinical validation | 15% go-to-market.
